JUNE 29, 2019  
10 am to 12 noon

With desert-like summers and frosty winters, selecting and choosing the right succulents for the Central Valley climate can be challenging. They are, however, perfect for the California landscape where water conservation is of utmost importance. Your choices can offer colorful species and art-like shapes to bring visual diversity to your landscape. This seminar provides an introduction to some of your best options to beautify your home’s landscape.

The first 30 attendees to sign in at the door will receive a 4"x4" redwood container and 5 succulent cuttings for their home use. You will also receive a handout listing to the most popular succulents and how to care for them.

THE WORKSHOP WILL ADDRESS:

› Why plant succulents and how difficult are they to grow.
› How and when to propagate for great success.
› The best soil for starting succulents and how to care for newly created plantlets.

ABOUT THE MASTER GARDENERS:

› The Master Gardener Program is a volunteer group within the University of California Cooperative Extension that seeks to be the preferred source of research-based information on gardening, landscape, and resource conservation for the residents of Merced County.
› Master Gardeners accomplish this through extension, informative outreach programs, and the workshops listed to the right.

RSVP:

CALL 209-385-7403 TODAY, TO RESERVE YOUR PLACE.  
Mon. – Fri. from 8 a.m. to 12 p.m. and 1 to 5 p.m.

COST:
Upcoming workshops are free to attend unless otherwise stated. Suggested $5 donation.

EDUCATION CREDIT:
Participants can apply for continuing education credit (CEU) through UC Merced Professional and Continuing Education for an additional $40 for one CEU if they attend six workshops.

You can apply for the CEU on November 29, 2019 at http://ucm.edu/v/master-gardener-workshops.

LOCATION:
Unless otherwise stated all workshops at UC Cooperative Extension, 2145 Wardrobe Ave, Merced, CA 95341
