June 30, 2018
9 to 11 a.m.

Join the UCCE Master Gardeners for a discussion on cacti and succulents.

WORKSHOP TOPICS:
> How succulents are different, which work best here in the Central Valley and why they’re a good choice for our yards and gardens.
> How to keep these plants happy and healthy and share our successes and failures when attempting to propagate them to share with our friends and neighbors.
> Share cuttings and starter plants for a better understanding of these waterwise treasures.

ABOUT THE MASTER GARDENERS:
> The Master Gardener Program is a volunteer group within the University of California Cooperative Extension that seeks to be the preferred source of research-based information on gardening, landscape, and resource conservation for the residents of Merced County.
> Master Gardeners accomplish this through extension, informative outreach programs, and the workshops listed to the right.
