

Summer Institute

Engineering Challenge Part 1: Ocean Pollutants

What?

Use engineering practices to learn how to contain and clean up an oil spill.

When

June 23rd
UC Merced

Who

Open to grades 7-12 teachers

Why

Teachers can purchase graduate units upon completing the workshop

Teachers will learn about the engineering concepts that can be applied in their classrooms.

Where do I apply?

This workshop is limited to the first 25 to register
